

FatMax® CL2 Self Leveling Laser Cross Level

The laser cross level rapidly and accurately projects both vertical and horizontal lines at the press of a button. The selfleveling feature ensures that the lines are level and alerts the user if the line becomes out-of-level.

- One button operation for easy maneuvering between functions
- 4 functions: horizontal line, vertical line, cross-line and tilt (manual) function
- Pendulum self leveling mechanism for accuracy and peace of mind
