

PROTECH

Model:PTG212T

MINI AIR BRUSH COMPRESSOR W/TANK (Oil-less)

Features & Function:

Unique equipment for coating with watercolors with a professional result. The constant and sufficient performance (air output) is secured by a classic piston framework. And the working pressure will perfectly be steady with an air regulator. Intelligent solution in spraying and airbrush jobs.

1. Single Cylinder Piston Compressor With Air Tank.
2. Multifunctional, low noise.
3. Thermally protected.
4. Auto release pressure and restart function.
5. Constant pressures and Zero pulsation.

Power: 1/6HP

Voltage: 220-240V / 50Hz,

Maximum pressure: 4 bars (58PSI)

Air output per min.: 23L/min.

Auto stop, start at 3bar, stop at 4Bar (special pressure available)

Safety valve: release the air pressure automatically when the pressure over 6bar in the air tank.

Air tank: 3.5L

Fitting: manometer; pressure regulator; air filter

Connections: with connection 1/8" BSP

Weight: 5.5kg
